Dear TLJA Families,

Thank you so much for all your support and for being so cooperative during this time of caution!! We had two people in our building test positive for COVID-19. This impacted two classrooms. These people do not ride the bus and have worn masks and social distanced. Our pod structure where scholars remain in their classrooms with the same people has allowed us to not impact the entire school. However, we must quarantine those two classes for two weeks as well as any other child in the household. Everyone in these classrooms may return on November 4th if they remain symptom free for the 2 weeks. If any children exhibit any symptoms, please contact your child's physician right away. Please report any symptoms to the school as well. We take every precaution to assure the safety of all. These are just safeguards we are taking to eliminate any further concerns.

If you need anything during this time or if you have any questions, please do not hesitate to call us. We will get through this together!!

Sincerely,

Dawn Starks

Superintendent
