

Michigan Educational Choice Center (MECC) Section 35j - Reporting Requirements

Pre-K to 5 Literacy Curriculum: Houghton Mifflin Harcourt (HMH) Into Reading which is evidence based literacy instruction grounded in the science of reading. Into Reading is our core curriculum for K-5 (we do not serve Pre-K) and is focused on teaching essential literacy skills including phonemic and phonological awareness, phonics and word analysis, fluency, language comprehension, background knowledge, vocabulary development, reading comprehension, and writing.

Benchmark Assessments: We utilize NWEA Assessments, MClass intervention, and Dibels reading assessment data to support the formation of small groups that can benefit from additional instruction on the same literacy skills, and monitor student progress and tailor personalized learning plans to meet the ongoing and changing needs of our students.
