

Credit Recovery

Credit recovery is designed to allow students to recover any core class credits they have yet to receive. Credit recovery's platform is Edgenuity in which all students are signed up through already. When they do need a class to be made up, Mr. O'Bryant or Mr. Brown will be assigning their classes and will give them their timeline of when the class needs to be completed.

Credit recovery is NOT a replacement for in person classes. In other words, just because a student is having a hard time during their in person class, they don't have the option of credit recovery just because they want to go that route. Credit recovery is designated for students who have previously failed that specific class the semester/year before.

As students enroll throughout the semester, Mr. Hill will flag them down on who needs what classes. Send all students who think they need to take credit recovery to Mr. Hill so he can check their transcript thoroughly.

For student athletes who need to make up classes, please make sure we are explaining to students that they can not be a division 1 athlete if you take credit recovery classes. The NCAA has strict rules and regulations on student athletes taking core classes in person vs. online. Please encourage students who are pursuing this route to inform them of the importance of passing classes in person vs. online.
