

February 5, 2021

Dear Families and Staff,

We learned today an individual from TBLA tested positive for COVID-19. This individual is currently in self-quarantine. Due to federal health privacy laws, information regarding their identity cannot be released. Please respect their privacy during this difficult time.

The Lake County Health Department is being contacted, and we are working with them on next steps. We will support the health department in its handling of the process and the appropriate notifications. Health officials will be interviewing/reaching out/providing assistance directly to individuals with an elevated risk of exposure who may have been in recent close contact with those who tested positive. All individuals who have been directly impacted have been contacted today by the school. ***If you were not contacted by the school, you or your scholar were not directly impacted.***

The Centers for Disease Control and Prevention (CDC) recommends contacting your doctor if you believe you have been exposed to COVID-19 and develop a fever and other symptoms, such as coughing or difficulty breathing. More information can be found at the Lake County Health Department. In addition, please take social distancing seriously: avoid large crowds, stay at home, and maintain at least a six-foot distance from other people.

We will continue to provide updates as needed. You can access all of the school's related communication by visiting our website at <https://www.phalenacademies.org/TheaBowman>. Questions may be sent to msimmons@theabowmanacademy.org or clumbley@phalenacademies.org.

Thank you for your continued support. By working together, we will get through these challenging times. As you know, the well-being of our scholars, staff and families is our number one priority.

Please join me in sending healing thoughts to those affected.

Sincerely,

Courtney Lumbley

Courtney Lumbley

PLA TBLA Regional Director
