

March 25, 2021

Dear Families and Staff,

We learned this evening that a student in our school tested positive for COVID-19. Due to federal health privacy laws, information regarding the student's identity will not be released.

When there is a confirmed positive case in the building, we work directly with the Genesee County Health Department on next steps. We support the health department in its handling of the process and the appropriate notifications. All individuals who have been exposed have already been contacted and will be quarantining. **If you were not directly contacted by the school, your scholar was not directly impacted.** This case will not impact virtual learning for our scholars.

The Centers for Disease Control and Prevention (CDC) recommends contacting your doctor if you believe you have been exposed to COVID-19 and develop a fever and other symptoms, such as coughing or difficulty breathing. More information can be found at the Genesee County Health Department. In addition, please take social distancing seriously: avoid large crowds, stay at home, and maintain at least a six-foot distance from other people.

We will continue to provide updates as needed. You can access all of the school's related communication by visiting our website at [www.greaterheightsacademy.org](http://www.greaterheightsacademy.org).

Thank you for your continued support. By working together, we will get through these challenging times. As you know, the well-being of our scholars, staff, and families is our number one priority.

Sincerely,

A handwritten signature in black ink that reads 'Tia Doyle'. The signature is written in a cursive, flowing style.

Tia Doyle, Superintendent
